INSIDE BACK COVER
ALMA MATER AND RAMBLIN’ WRECK LYRICS
It is my privilege to be a part of this institution from three perspectives — as an alumnus, a parent, and as president. Last spring, Beth and I were in the stands at McCamish Pavilion as proud parents when our son, Alex, received his B.S. in computer science. Today, I’m honored to greet you at Commencement for the first time as Georgia Tech’s 12th president.

At the foundation of Georgia Tech’s success are our hardworking and incredibly talented students. Their creativity, dedication, and accomplishments are inspiring and should make us all tremendously hopeful about their futures. Thanks also are in order for all the family members and friends who have inspired, guided, and challenged our graduates both before and during their time here at Tech.

For more than 4,200 undergraduate and graduate students, this weekend’s ceremonies recognize their academic achievements at Georgia Tech and inaugurate a new era in their lives. At this weekend’s ceremonies, we are awarding bachelor’s, master’s, and doctoral degrees through our six colleges and 28 schools.

At Georgia Tech, we are proud to be recognized among the nation’s very best public universities and the world’s leading research institutions. Our programs in engineering, computer science, business, and other disciplines are consistently ranked among the best in their categories. Our faculty attract more than $1 billion in research grants every year. And we are a member of the Association of American Universities, a group of 65 leading research universities in the U.S. and Canada.

Yet, there is no better way to measure the success of a university than by the degree to which its alumni succeed. By that standard, Georgia Tech is one of the world’s premier institutions of higher learning. Georgia Tech’s 167,000 living alumni are working and contributing their talents all over the globe and in each of our country’s 50 states. Prepared by the world-class education they received at the Institute, they are “Creating the Next” in many fields and making our world a better, more humane place in which to live.

Our enrollment this fall is almost 36,500, a historic high and a reflection of the demand locally, nationally, and worldwide for a Georgia Tech education.

Commencement marks the end of an important chapter in the lives of these graduates, but it is truly just the beginning as they step into a bright and successful future. We thank you for coming here today to share this milestone in their lives.

Ángel Cabrera
President, Georgia Institute of Technology
Doctoral Ceremony

9 a.m. | December 13, 2019
Order of Events

Processional

Master of Ceremonies
Ángel Cabrera
President

National Anthem
Georgia Tech Chamber Choir

Reflection
Sungmee Park
Doctoral Degree Candidate, Materials Science and Engineering

Induction into the Alumni Association
S. Brent Zelnak
Chair, Georgia Tech Alumni Association

Commencement Address
David L. McDowell
Carter N. Paden Jr. Distinguished Chair in Metals Processing
Georgia Tech Distinguished Professor, 2019

Presentation and Hooding of Doctoral Degree Candidates
Rafael L. Bras
Provost and Executive Vice President for Academic Affairs

Conferring of Degrees
President Cabrera

Faculty Recessional

Ceremony Speakers

**Doctoral Ceremony Speaker**
David L. McDowell

Regents Professor and Carter N. Paden Jr. Distinguished Chair in Metals Processing, David L. McDowell joined Georgia Tech in 1983 and holds appointments in both the George W. Woodruff School of Mechanical Engineering and the School of Materials Science and Engineering. He served as director of the Mechanical Properties Research Laboratory from 1992 to 2012. In August 2012 he was named founding director of the Institute for Materials (IMat), a Georgia Tech research institute charged with cultivating cross-cutting collaborations in materials research and education and developing the materials innovation ecosystem. IMat has initiatives in both campus materials user facilities and in accelerating materials discovery and development by building on materials data science and informatics approaches.

In 2019 McDowell received the Class of 1934 Distinguished Professor Award, Georgia Tech’s highest annual award bestowed on a faculty member for sustained outstanding achievement in teaching, research and service. He has authored or coauthored more than 400 papers, 500 presentations, and he has advised or coadvised more than 80 graduate students.

McDowell currently serves on the editorial boards of *NPJ: Computational Materials* and the *Journal of Multiscale Modeling* and is coeditor of the *International Journal of Fatigue*. He is a fellow and past president of the Society for Engineering Science and a fellow of the American Society of Mechanical Engineers and ASM International.

**Master’s Ceremony Speaker**
Theodore (Ted) Colbert III

Theodore (Ted) Colbert III, IE 1996, is executive vice president of The Boeing Company and president and chief executive officer of Boeing Global Services. He also serves as a member of Boeing’s Executive Council.

In these leadership roles, Colbert is responsible for leading Boeing’s aerospace services development and delivery model for commercial and government customers worldwide. Global Services has 300 locations in more than 70 countries.

Previously, Colbert was chief information officer and senior vice president of Information Technology and Data Analytics at Boeing.

Earlier in his career at Boeing, Colbert was head of Information Technology Infrastructure. He also he led the IT Business Systems organization, where he managed the computing application systems that support Boeing Finance, Human Resources, and Corporate and Commercial Capital Business Units, as well as the company’s internal systems.

Colbert completed the Dual Degree Engineering Program at Georgia Tech and Morehouse College with degrees in industrial and systems engineering and interdisciplinary science. He is a member of the Executive Leadership Council and serves on the Board of Directors for the Thurgood Marshall College Fund, Georgia Tech Advisory Board, and New Leaders.

Over the course of his career, he has won numerous awards. Most recently, he was the first recipient of the Fisher Center Prize for Excellence in Driving Transformation from the Fisher Center for Business Analytics at the Berkeley Haas School of Business.
Bachelor’s Ceremony Speaker and Honorary Degree Recipient

Steven A. Denning

Steven A. Denning, IM 1970, is the chairman of General Atlantic LLC, a firm he joined in 1980 and has helped build into a leading global growth equity firm, with $35 billion in assets under management and 14 offices worldwide.

Denning joined General Atlantic after working with McKinsey & Company. He received an MBA from the Stanford Graduate School of Business in 1978. Before business school, Denning served for six years in the U.S. Navy, where he also earned an M.S. from the Naval Postgraduate School in Monterey, California. He received a B.S. from the Georgia Institute of Technology in 1970.

Denning is a member of the Board of Directors of the Council on Foreign Relations, the National Park Foundation, College Advising Corps, the New York Regional Plan Association, the Markle Foundation, and Blue Meridian Partners Inc., and is vice chair of the Board of Trustees of the Carnegie Endowment for International Peace.

He is also chair of the Global Advisory Council to the President, the Advisory Council of the Freeman Spogli Institute, and the Natural Capital Advisory Council, all at Stanford University, and is a member of the Knight-Hennessy Scholar Program Advisory Board, the Stanford Distinguished Careers Institute Advisory Council, and the Human-Centered Artificial Intelligence Advisory Council.

He is a Senior Trustee of The Brookings Institution, the American Museum of Natural History, and the Georgia Tech Foundation.

Denning grew up in Salt Lake City, Utah. He and his wife, Roberta, currently reside in Greenwich, Connecticut, and San Francisco, California. They have two children, Robert and Carrie.
On September 1, 2019, Ángel Cabrera became the 12th president of the Georgia Institute of Technology. Cabrera came to Georgia Tech after serving for seven years as president of George Mason University in Fairfax, Virginia.

George Mason is the largest and fastest-growing public university in Virginia. Under his leadership, the university accounted for more than half of all enrollment growth in Virginia, increased student outcomes, and joined the top tier of research universities in the Carnegie Classification. The university established partnerships to expand online programs and international recruitment and built several new facilities. Philanthropic contributions more than doubled. In 2018, it was named by Forbes as one of America’s best midsize employers.

From 2004 to 2012, Cabrera served as president at Thunderbird School of Global Management, now part of Arizona State University. Prior to that he was dean of IE Business School in Madrid. As a business educator, Cabrera has played a key role in advancing professional ethics, internationalization, and corporate social responsibility. As a senior advisor to the United Nations Global Compact, in 2007 he was the lead author of the “Principles for Responsible Management Education,” now adopted by more than 700 schools around the world.

Cabrera’s research has been published in leading academic journals. He has been quoted by leading global media, including The Economist, BBC, CNN, CNBC, El País, Forbes, The International Herald Tribune, and The New York Times. His op-eds have been published by The Washington Post and the international press, and he has appeared on NPR programs and PBS NewsHour.

He’s been named a “Young Global Leader” by the World Economic Forum, a “Star of Europe” by Businessweek, “Henry Crown Fellow” by the Aspen Institute, and “Great Immigrant” by the Carnegie Corporation of New York. He has received honorary degrees from Miami Dade College and Universidad Politécnica of Madrid.

Cabrera serves on the boards of the National Geographic Society, the Bankinter Foundation for Innovation, and Inovio, a publicly traded biotech company. For most of the past decade, he has served on the Georgia Tech Advisory Board, including a stint as its chair.

Cabrera earned his M.S. and Ph.D. in cognitive psychology from Georgia Tech, which he attended as a Fulbright Scholar. He also holds a telecommunications engineering degree (B.S. and M.S. in computer and electrical engineering) from Universidad Politécnica de Madrid.

He is married to management scholar and Georgia Tech classmate Elizabeth Cabrera, M.S. PSY 1993, Ph.D. PSY 1995. Their son Alex is a recent Georgia Tech graduate and currently a Ph.D. student at Carnegie Mellon University. Their daughter Emilia is a junior at Harvard University.

Cabrera is the first native of Spain to serve as president of an American university.
A professor in the School of Civil and Environmental Engineering and the School of Earth and Atmospheric Sciences, Rafael L. Bras is the first Georgia Tech faculty member to hold the K. Harrison Brown Family Chair. As provost and executive vice president for Academic Affairs, Bras oversees all of Georgia Tech's academic and related units, including the colleges, the library, international relationships, professional education, the arts, and enrollment.

His current initiatives include overseeing the Commission on Creating the Next in Education, an ongoing effort of Georgia Tech's educational innovation ecosystem dedicated to the adoption of new and innovative educational methodologies, including the growth of lifelong learning opportunities for traditional and nontraditional learners. He is also responsible for overseeing the ongoing Library Next project, the emerging educational collaboration with the City of Shenzhen and Tianjin University in China, and Serve-Learn-Sustain, the Institute's Quality Enhancement Plan. Through the Arts@Tech initiative, Bras seeks to integrate the creative and innovative thinking of artistic endeavors into the mindset and education of all our students.

A native of Puerto Rico, Bras completed undergraduate and graduate education at the Massachusetts Institute of Technology (MIT), culminating with a Doctor of Science degree in Water Resources and Hydrology. Prior to becoming provost at Georgia Tech in 2010, Bras was distinguished professor and dean of the Henry Samueli School of Engineering at the University of California, Irvine. For 32 years prior to joining the University of California, he was a professor in the departments of Civil and Environmental Engineering and Earth, Atmospheric, and Planetary Sciences at MIT. He is past chair of the MIT faculty, former head of the Civil and Environmental Engineering department, and director of the Ralph M. Parsons Laboratory.

He has served as advisor to many organizations, including the National Science Foundation, National Research Council, and NASA. He is a former member of the U.S. Secretary of Energy Advisory Board.

Bras is past president of the hydrology section of American Geophysical Union (AGU) and is a former member of its Board of Directors. He also is a member of the Board of Trustees for the University Corporation for Atmospheric Research, and is an emeritus trustee of the Foundation for Puerto Rico. He was also a member of Coursera's Educational Advisory Board.

He is an elected member of the U.S. National Academy of Engineering, the Academy of Arts and Sciences of Puerto Rico, and a corresponding member of the Mexican National Academy of Engineering and the Mexican National Academy of Sciences. He also is an elected Fellow of several professional organizations, including the American Geophysical Union, the American Society of Civil Engineers (of which he is a distinguished member), the American Meteorological Society, and the American Association for the Advancement of Science. The Museum of Science Industry named Bras the 2014 National Hispanic Scientist of the Year.

Bras maintains an active international consulting practice. Until recently, he chaired a panel of experts that supervised the design and construction of a multibillion-dollar project to protect the City of Venice from floods. He also has published two textbooks, more than 225 refereed journal publications, and several hundred other publications and presentations. Bras and his wife, Pat, have two adult sons.
**THE MACE**

In academic ceremonies, the mace is an ornamental staff carried as a symbol of authority. The office of the mace bearer, though purely ornamental, dates back to medieval England when special occasions required the use of a bodyguard. In colonial America, the mace became a symbol of office when it was used in conjunction with academic regalia.

The Georgia Tech mace carried in today's ceremony was designed by Cabell Heyward, a former research scientist in the College of Design, and was first used in April 1988 at the presidential installation of John P. Crecine. The mace was made possible by a gift from the Georgia Tech Student Foundation and the Class of 1934.

The primary focus of the mace is its three brass rods, which demonstrate the principle of “tensegrity,” a concept of structure combining tension and integrity developed by R. Buckminster Fuller in 1927. The integrity, or wholeness, of the mace is maintained by each of the rods being held in place by the tension of the steel wire; the rods do not touch one another at any point.

The brass rods symbolize the three primary components of Georgia Tech's mission: education, research, and service. The gold color of the brass and the white color of the steel wire represent Georgia Tech's colors. The mace also incorporates three silver metallic seals, which are reproductions of the official seal of the state of Georgia, the original seal of Georgia Tech, and the current seal of the Institute.

The mace was fabricated by Heyward and Arthur Schoenfeld, another former research scientist in the College of Design, in conjunction with Atlanta jeweler Robert Nagle.

**ACADEMIC REGALIA**

The academic regalia worn by today’s participants is a colorful relic dating back to the Middle Ages, when education was a function of religious organizations. The monks’ habit and the cowl worn over their heads were predecessors of the modern black gowns and hoods. The mortarboard was developed from the skullcaps worn during medieval days by churchmen officiating at religious services.

In 1894, American universities standardized gown styles for the three different types of degrees. Doctoral candidates at Georgia Tech wear customized gold regalia with full rounded sleeves, velvet facings on the front, and velvet bars on the sleeves. Hoods are lined in Georgia Tech's colors of white and gold. The doctoral hood is distinguished by its blue trim, which is the color representing philosophy. Doctoral candidates also wear a six-pointed tam in the same blue trim.

Master’s degree candidates wear the traditional black gown with full-length square sleeves that have a crescent-shaped piece hanging from each sleeve. The gowns are also adorned with the Georgia Tech seal. The master’s hoods are lined in white and gold and are distinguished on the outside by the color of their degree program. Recipients of the bachelor’s degree wear a similar black gown, but with no hood and no additional material at the bottom of the sleeves.

Caps used by master’s and bachelor’s graduates are traditional mortarboards, and tassels are white and gold.
ACADEMIC DEGREES

The Bachelor’s Degree
The bachelor’s degree is the oldest academic degree used by American colleges and universities. The degree, which represents completion of a four-year course of study, was first awarded in 1642 to the graduating class of Harvard College.

The Master’s Degree
The master’s degree represents the completion of one or two years of study beyond the bachelor’s degree. The degree dates back to the oldest universities in Europe, and it usually requires a thesis and an oral examination.

The Doctoral Degree
The doctoral degree is the most advanced academic degree conferred by American institutions of learning. “Doctor,” which means teacher or instructor, was used as a title in the 12th century to denote men of great learning.

HONORS QUALIFICATIONS AND CORDS
Honor designations are for undergraduates at Georgia Tech who have met the minimum residency hours requirement of 60 hours, as well as the minimum GPA.

- To achieve honor, the minimum GPA is 3.15.
- To achieve high honor, the minimum GPA is 3.35.
- To achieve highest honor, the minimum GPA is 3.55.

Changes in honor status may also occur after final printing. Georgia Tech issues honor cords to recognize students’ academic achievements. White cords denote honor, gold cords denote high honor, and a braided white and gold cord denotes highest honor.

INTERNATIONAL PLAN
The International Plan is a challenging four-year program that works in tandem with an undergraduate’s academic curriculum to produce globally competent citizens. The International Plan utilizes existing study, work, and research abroad opportunities available through the Office of International Education and the Center for Career Discovery and Development.

COOPERATIVE PLAN
The Undergraduate Cooperative Education Program is an academic option designed to complement a student’s formal education with paid, practical work experience directly related to the student’s academic major. It is available in all engineering majors, as well as many majors in other colleges at Georgia Tech.

CEREMONY AND TRADITIONS

THE RAMBLIN’ WRECK
The Ramblin’ Wreck is the 1930 Ford Model A Sport coupe that serves as the official mascot. The Wreck is present at all major sporting events and student body functions. Its most noticeable role is leading the football team into Bobby Dodd Stadium at Historic Grant Field, a duty that the Wreck has performed since 1961.

THE WHISTLE
Tech’s iconic steam whistle blasts its signal when Tech wins a home football game and for milestone events.

BUZZ
Legendary Tech icon Buzz made his first campus appearance at a student pep rally in 1980. Over the past three decades, Buzz has gone on to become one of the most beloved — and globally recognized — university mascots.

IN MEMORIAM
We recognize the passing of members of the Georgia Tech community with the floral arrangement at the front of the stage.

GUEST DECORUM
You are requested to refrain from loud expressions of excitement for individual graduates. Such expressions detract from the recognition due the next graduate in line. Your cooperation is appreciated.

28 | 2019 FALL COMMENCEMENT
# Master's Degree Candidates

## Operations Research
- Mohammed Faisal Ahmed
- Abdullah Saad N. Alamri
- Camila Fernanda Albornoz Moraga
- Shiladitya Banerjee
- Ayush Barmecha
- Brett Andrew Carpenter
- Roberto Carlos Castillo Jaramillo
- Yuan Dong
- Min Fei
- Feng Feng
- Kevin Griffith
- Xuejue Guo
- Peiming He
- Ian Hodara Herszterg
- Jean Jerome Marie Pascal Huck
- Nutthakorn Intharacha
- Corey Glenn Kirkpatrick
- Soonhong Simon Kwon
- Felipe Lagos Gonzalez
- Yongsuk Lee
- Taylor Joseph Leonard
- Jingyu Li
- Xiaofeng Liu
- Harold Adodo Nikoue
- Sirapat Niyom
- Isabella Thavi Sanders
- Dustin William Shaffer
- Hanbo Shao
- Stephen Kline Spicher
- Duo Wang
- Di Wu
- Congshi Zou

## Aerospace Engineering
- Alan Pookayaporn Alahmad
- Beatriz Alcalde Santiago
- John A. Amin
- Arjun Anand
- Dawn Alyvia Andrews
- Saeyone Balasekar
- Marlin Bausum Ballard III
- Edan Menashe Baltman
- George Zachary Bassett
- Benjamin Paul Berthon
- Logan Edwin Arneson Bewley
- Jirat Bhanpato
- Nathanael Daniel Wilhelm Bieter
- Nikita Sergeevich Birbasov
- Donald Bistri
- Marc-Henri Bleu-Laine
- Agathe Kathia Boutaud
- Christopher E. Cargal
- Makram Chahine
- Britney Ann Coleman
- Alexander Noel Colom
- Samantha Jane Corrado
- Taylor Marcus Fields
- Yuanxin Shen
- Kevin Charles Sheridan

## Industrial Engineering
- Harrison D. Armstrong
- Wencang Bao
- Roshan Devanathan
- Robert Haotian Gan
- Lakshana Ganesh
- Margaret Antoinette Harward
- Felix Izquierdo III
- Sahil Abdul Khader Kudroli
- Kishan Kumar
- Aleksie Li
- Yue Li
- Xiaoxun Liu
- Maurice Lubetzki
- William Duncan MacIiwinen

## Materials Science and Engineering
- William James Andrews III
- Manali Banerjee
- Idean John Behforouz
- Blake Christian Cotney
- Shreya Dwarkanath
- Elliot Christian Frey
- Frederick Scott Gray
- Samyak Jain
- Michael Z. Liu
- Adam P. Maffe
- Ali Ahmed Abdelhafiz Mahmoud
- Vivek Prakash
- Matthew Scott Rager
- Diego Esteban Vaca
- Eric Von Strobol Woods
- Hannah Kathryn Woods

Unlike traditional art and design programs, the Georgia Tech College of Design uses the design process to develop new technologies, buildings, environments, and human experiences. Students, faculty, and researchers in the Schools of Architecture, Building Construction, City and Regional Planning, Industrial Design, and Music strive to understand how technology enables better design, and how to fuse that technology into places, products, lifestyles, learning, and health care.

The College's research initiatives encompass today's most pressing human and built environment issues, from accessibility, sustainability, and smart cities to groundbreaking efforts in spatial analysis and music technology. Approximately 981 graduate and undergraduate students are enrolled in the College of Design, and roughly 1,100 students — representing all majors at Georgia Tech — enroll in music courses each semester.
From the opening of the Institute and the establishment of the School of Mechanical Engineering in 1888, the College of Engineering (CoE) has continually grown. Today, the College incorporates eight engineering schools with a full-time enrollment of more than 15,000 undergraduate and graduate students. The College consistently ranks among the top five elite engineering schools in the country. All undergraduate and graduate engineering programs are ranked in the top 10 nationally.

CoE is the largest college of engineering in the country and is number one in the production of women and minority engineers. CoE has almost 100,000 alumni living in 120 countries around the globe. Alumni go on to careers across all walks of engineering, as well as in professions like law, medicine, business, and public policy.

The College of Sciences leads Georgia Tech’s charge to create and discover fundamental new knowledge in the sciences and mathematics. Together, Sciences students and faculty boldly explore natural and artificial worlds, not only to reveal and underpin the technologies of tomorrow, but also to advance the quality of human life and elevate the human spirit.

The College nurtures students who are intellectually curious, inspiring them to build for themselves empowering foundations in the natural, mathematical, and behavioral sciences. They are transported to the frontiers of human understanding, and invited to participate in pushing those frontiers forward by undertaking high-impact research in collaboration with world-class faculty in state-of-the-art facilities.

College of Sciences graduates are well honed in thinking critically, testing hypotheses, and engaging with others to unravel complex problems. They draw conclusions, reach decisions, and make judgments about nature through the enthralling interplay of data, reason, and imagination. They are indispensable in ensuring that the basic knowledge pipeline for new technologies is full and flowing.

From exploring the bizarre quantum logic of ultra-cold atoms or the breathtaking grandeur of the stars and the galaxies, to deciphering the billion-year history of Earth’s oceans and atmosphere, the origins of life on Earth and elsewhere in the cosmos, or the workings of the human brain, Sciences students embody the value and rewards of scientific curiosity shaped by careful mentoring and deep respect for how much of the world we still must discover and understand.
Georgia Tech Professional Education (GTPE) is an academic division of the Institute. Providing continuing education for more than a century and learning at a distance for more than 40 years, GTPE enables working professionals and industry partners to access the expertise of a world-renowned research university.

GTPE offers professional development courses, certificate programs, and master’s degrees to career-focused adults in STEM and business fields worldwide. These programs are designed to position professionals to deliver immediate workplace impact using knowledge and skills learned from Georgia Tech’s faculty experts and each other.

Learners can also take Georgia Tech’s Massive Open Online Courses (MOOCs), which are produced by GTPE. Programs are delivered in a variety of formats including face-to-face, online, and hybrid to suit the diverse needs of working professionals. GTPE also administers K-12 outreach and English as a Second Language (ESL) programs, and manages learning-centered meeting and conference facilities in Atlanta and Savannah.

The Georgia Tech Library is recognized internationally for robust digital services, student engagement initiatives, transformation of physical spaces, and innovative programming and services. Millions of books, journals, technical reports, government documents, maps, videos, popular reading, science fiction, and other items are available via the Library.

The Library’s website features access to hundreds of databases and thousands of books, e-books, scholarly journals and e-journals, reports, electronic dissertations, discipline and course-specific research guides, and much more.

With more than 500,000 visits to the website, nearly 4 million searches and full-text content accessed, and more than 1 million on-site visits annually, the Library’s services and resources are heavily utilized by the Georgia Tech community.

For students, the Library is a 24/7 gathering place — cultivating intellectual inquiry, promoting academic discourse, and fostering knowledge. For faculty, the Library supports world-class advancements in teaching and research.

The Library also manages the G. Wayne Clough Undergraduate Learning Commons, which is dedicated to student academic enrichment and innovative learning opportunities. Clough Commons is a popular destination for students, with more than 3 million visits annually.
With more than 400 student-athletes across 17 varsity sports, Georgia Tech competes at the highest level of intercollegiate athletics as a member of NCAA Division I and the Atlantic Coast Conference, while also developing young people who will change the world. Georgia Tech has long been a leader in innovation in college athletics with the NCAA CHAMPS/Life Skills Program (known as the Total Person Program at Georgia Tech), commitments to athletic scholarships until a student-athlete graduates, and the use of virtual reality in recruiting, among the many concepts that originated on The Flats.

The Yellow Jackets have won five national championships during their illustrious history (four in football — 1917, 1928, 1952, and 1990; and one in women’s tennis — 2007), and made two appearances in the Final Four in men’s basketball (1990 and 2004) and three in the College World Series in baseball (1994, 2002, and 2006). Combining a world-class education with top-notch athletics, Georgia Tech has produced 85 Academic All-Americans.
The President’s Cabinet

Chaouki T. Abdallah  
Executive Vice President for Research

Rafael L. Bras  
Provost and Executive Vice President for Academic Affairs

The Institute also wishes to thank the dozens of student, faculty, and staff volunteers who helped make today’s ceremony possible. Your contributions are absolutely vital, and your hard work and devotion to Georgia Tech are much appreciated.
CONGRATULATIONS!

As a Tech graduate, you are now part of the Georgia Tech Alumni Association, an exclusive organization of more than 167,000 alumni worldwide. As a member of the Alumni Association, you have access to Tech’s global alumni network — a valuable asset as you embark upon your professional journey. You also have access to many other benefits and programs, including:

» Professional development opportunities, networking events, and more to help you reach your career goals

» Geographic network groups to connect you with fellow Yellow Jackets, no matter where in the world you end up

» Special events throughout the year, on campus and around the globe

» Volunteer leadership and community service opportunities

» Subscription to the Georgia Tech Alumni Magazine and Buzzwords

Roll Call, Georgia Tech’s Fund for Excellence, has raised millions of dollars from alumni for Georgia Tech to fund student scholarships, state-of-the-art programs, world-class facilities, and much more. Georgia Tech continues to get better every year, thanks in large part to the generosity of our loyal alumni.

Log on to gtalumni.org and download the GT Alumni mobile app to begin receiving all of your free benefits from the Georgia Tech Alumni Association. Through this alumni portal, you can customize your preferences, register for events, network with fellow alumni, and much more.
THE ALMA MATER

Oh, sons of Tech, arise, behold!  
The Banner as it reigns supreme,  
For from on high the White and Gold  
Waves in its triumphant gleam.

The spirit of the cheering throng  
Resounds with joy revealing  
A brotherhood in praise and song,  
In memory of the days gone by.

Oh Scion of the Southland!  
In our hearts you shall forever fly.  
We cherish thoughts so dear for thee,  
Oh, Alma Mater in our prayer.

We plead for you in victory,  
And in the victory we share!  
But when the battle seems in vain  
Our spirits never falter,

We’re ever one in joy or pain  
And our union is a lasting bond.  
Oh! May we be united  
Till the victory of life is won.

Music by Frank Roman  
Words by I.H. Granath

THE RAMBLIN’ WRECK

I’m a Ramblin’ Wreck from Georgia Tech, and a hell of an engineer  
A helluva, helluva, helluva, helluva, hell of an engineer.  
Like all the jolly good fellows, I drink my whiskey clear.  
I’m a Ramblin’ Wreck from Georgia Tech, and a hell of an engineer.

Oh! If I had a daughter, sir, I’d dress her in white and gold,  
And put her on the campus to cheer the brave and bold.  
But if I had a son, sir, I’ll tell you what he’d do—  
He would yell “To Hell with Georgia” like his daddy used to do.

Oh! I wish I had a barrel of rum and sugar three thousand pounds,  
A college bell to put it in and a clapper to stir it ‘round.  
I’d drink to all good fellows who come from far and near.  
I’m a Ramblin’, Gamblin’, hell of an engineer.
