INSIDE BACK COVER
   ALMA MATER AND RAMBLIN’ WRECK LYRICS
President’s Welcome

Welcome to the 259th Commencement of the Georgia Institute of Technology. On behalf of the entire Georgia Tech community, I extend our greetings to friends, families, and guests gathered here for this significant event, and to those of you participating virtually.

These ceremonies on the Atlanta campus have additional significance. They will bring us back together again after our difficult decision in the spring to cancel Commencement amid the early months of the pandemic. Back then we held an online celebration, and I will never forget delivering my congratulatory remarks in an empty McCamish Pavilion. Since then, we have traveled a long and difficult journey together and, with everyone’s help, we have found innovative ways to get the job done and keep Georgia Tech strong.

Like everything we have done this year, these ceremonies will also be different. They are being held outdoors in the middle of December in Bobby Dodd Stadium with a host of safety precautions in place, and with many of our graduates and their families following online. Yet, rain or shine, no matter how cold it may be and how physically distanced we may need to sit, the Georgia Tech community will gather to celebrate the remarkable academic accomplishments of our graduates.

We celebrate the resourcefulness, resilience, and hard work of all 9,330 graduates: 3,800 from fall, 1,290 from summer, and 4,240 who graduated in the spring; bachelor’s, master’s, and doctoral degrees through our six colleges and 28 schools. Each of them completed their degree in unprecedented circumstances and had the resolve to do whatever needed to be done.

The past few months have been challenging for everyone. Yet Georgia Tech students, faculty, staff, and alumni have met the challenges with resilience, confidence, and a spirit of innovation. They have crafted sophisticated solutions to help us fight the pandemic on campus, in our community, and around the world. From designing new personal protective equipment, to developing and testing therapeutic and diagnostic tools, to analyzing and visualizing complex data to track and slow down the spread of the disease, the Georgia Tech community has stepped up and made a difference.

Over the past year, students, faculty, staff, and Georgia Tech supporters joined together to create a new 10-year strategic plan that we just launched. It is grounded in our commitment to developing leaders who advance technology and improve the human condition and is driven by a set of ambitious goals and bold actions to amplify the impact we have in the world.

As we celebrate these new graduates who are prepared to address some of the world’s greatest challenges, it gives me great pride to realize that they have already been doing that.

At the foundation of Georgia Tech’s success are our hardworking and incredibly talented students. Their creativity, dedication, and accomplishments are inspiring and should make us all tremendously hopeful about their, and our, future. Thanks also are in order to all the family members and friends who have inspired, guided, and challenged our graduates both before and during their time here at Tech.

Commencement marks the end of an important chapter for these graduates, but it is truly just the beginning as they step into a bright and successful future. We thank you for coming here today, as well as those of you joining virtually, to share this milestone in their lives.

Ángel Cabrera
President, Georgia Institute of Technology
Spring and Summer Bachelor’s and Master’s Ceremony

4 p.m. | December 11, 2020
Order of Events

President’s Party Processional

Master of Ceremonies
Ángel Cabrera
President

National Anthem

Reflection
Mahdi Al-Husseini
Master’s Candidate
College of Computing

Induction into the Alumni Association
Jocelyn Stargel
Chair, Georgia Tech Alumni Association

Faculty Address
C.F. “Jeff” Wu
Professor and Coca-Cola Chair,
H. Milton Stewart School of Industrial and Systems Engineering
Class of 1934 Distinguished Professor

Commencement Address
Sachin D. Shailendra
Chair, University System of Georgia Board of Regents
President, SG Contracting Inc.

Introduction of Academic Deans
Steven W. McLaughlin
Provost and Executive Vice President for Academic Affairs

Presentation of Degrees
Charles Isbell
Dean, College of Computing
Anna Westerstahl Stenport
Chair, School of Modern Languages
Ivan Allen College of Liberal Arts
Michelle Rinehart
Associate Dean, College of Design
Jonathan Clarke

Ceremony Speakers

Friday Afternoon Ceremony Speaker
Sachin D. Shailendra

Sachin Shailendra is the founder and president of SG Contracting Inc. Throughout his career, he has earned a reputation for integrity, honesty, and commitment to client satisfaction. His extensive portfolio of construction experience and his ability to solve problems and effectively communicate plans and processes at all levels make him a valuable leader to assist owners, subcontractors, architects, and designers with new projects and renovation projects alike.

Shailendra is a graduate of the Georgia Institute of Technology and an alumnus of Woodward Academy, where he has served as president of the Alumni Association and as a member of the school’s Advisory Council. Currently, he serves as chairman of the Board of Regents of the University System of Georgia. He is also actively involved in numerous civic organizations, serving as a member of the Rotary Club of Atlanta and the Atlanta Police Foundation, as well as a board member of both the Georgia REACH Foundation and the Children’s Healthcare of Atlanta’s Sports Network.

He resides in metro Atlanta with his wife and their daughter and son.

Saturday Morning Ceremony Speaker
James Quincey
Chairman and Chief Executive Officer
The Coca-Cola Company

James Quincey is chairman and CEO of The Coca-Cola Company. Quincey, who first joined the company in 1996, has held a number of leadership roles around the world.

He is leading Coca-Cola in its continuing evolution as a total beverage company. Coca-Cola is a growth company that provides brands and beverages that make life’s everyday moments more enjoyable, all while doing business the right way. The result is shared opportunity for communities, customers, employees, and shareowners.

Before becoming CEO, Quincey served as president and chief operating officer of the company. From 2013 to 2015, he was president of the company’s Europe Group. Under his leadership, the group expanded its brand portfolio and improved market share. Quincey also played a key role in the creation of Coca-Cola European Partners, one of the largest independent Coca-Cola bottlers in the world. Quincey served as president of the Northwest Europe and Nordics business unit from 2008 to 2012.

He joined the company in Atlanta in 1996 as director of learning strategy for the Latin America Group. He went on to serve in a series of operational roles in Latin America, eventually leading to his appointment as president of the South Latin division in 2003. He was president of the company’s Mexico division from 2005 to 2008.

Prior to joining Coca-Cola, Quincey was a partner in strategy consulting at The Kalchas Group, a spinoff of Bain & Company and McKinsey. A native of Britain, he holds a bachelor’s degree in electronic engineering from the University of Liverpool.
**Saturday Afternoon Ceremony Speaker**

**Wonya Lucas**

Wonya Lucas is president and chief executive officer of Crown Media Family Networks. Lucas oversees the company's portfolio of entertainment brands, including linear networks Hallmark Channel, Hallmark Movies & Mysteries, and Hallmark Drama; subscription video on demand service Hallmark Movies Now; and publishing division Hallmark Publishing.

Prior to joining Crown Media, Lucas was president and chief executive officer of Public Broadcasting Atlanta, where she oversaw Atlanta's NPR and PBS stations. Previously, she was president and CEO for TV One, where she was the second African American woman to be president and CEO of a cable television company. Prior to joining TV One, Lucas held several positions at Discovery Communications.

Her other professional experience includes serving as general manager and executive vice president of The Weather Channel Networks, where she was responsible for corporate strategy and development. At Turner Broadcasting System, she was senior vice president of strategic marketing for cnn.com, CNN radio, and CNN Networks Worldwide; vice president of business operations and network development for Turner Entertainment; and vice president of Entertainment Marketing for TNT. Lucas also held brand management roles within The Coca-Cola Company and The Clorox Company. She began her career with Westinghouse Electric as a product engineer.

Lucas currently serves on the Peabody Awards Board of Jurors and the Sundance Institute Board of Trustees. She also serves as a corporate board member for EW Scripps, and on the Georgia Tech Foundation Board of Trustees, Georgia Tech College of Engineering Advisory Board, Children's Hospital of Atlanta Board, and the Community Foundation of Greater Atlanta Board. She is a member of Alpha Kappa Alpha Sorority Inc. Lucas holds an MBA in finance and marketing from The Wharton School at the University of Pennsylvania and a B.S. in industrial engineering from Georgia Tech. She is the proud mother of two adult daughters, Alexis Kirton and Sydney Kirton.
On Sept. 1, 2019, Ángel Cabrera became the 12th president of the Georgia Institute of Technology. Cabrera came to Georgia Tech after serving for seven years as president of George Mason University in Fairfax, Virginia.

A top-10 public research university in the U.S., Georgia Tech has outstanding programs in business, computing, design, engineering, liberal arts, and the sciences. With 40,000 students and more than 170,000 living alumni who work in business, industry, and government throughout the world, Georgia Tech has become internationally recognized for the quality of its educational and research programs.

Under his leadership for the past year, thousands of members of the Georgia Tech community have contributed to a new 10-year strategic plan launched in Fall 2020. The plan is grounded on a new mission statement that reaffirms Tech’s commitment to “developing leaders who advance technology and improve the human condition.”

He is leading the Institute through one of the most critical times in its history in response to the coronavirus pandemic — internally to prioritize the health and safety of the Tech community and externally to develop innovative solutions to combat the disease.

Under his leadership at George Mason, the university accounted for more than half of all enrollment growth in Virginia, increased student outcomes, and joined the top tier of research universities in the Carnegie Classification. From 2004 to 2012, Cabrera served as president of the Thunderbird School of Global Management, now part of Arizona State University. Prior to that he was dean of IE Business School in Madrid.

As a business educator, Cabrera has played a key role in advancing professional ethics, internationalization, and corporate social responsibility. As a senior advisor to the United Nations Global Compact, in 2007 he was the lead author of the “Principles for Responsible Management Education,” now adopted by more than 700 schools around the world. He is also a co-founder of the University Global Coalition, an international network of universities working in partnership with the United Nations in support of the Sustainable Development Goals.

He’s been named a “Young Global Leader” by the World Economic Forum, a “Star of Europe” by Bloomberg Businessweek, “Henry Crown Fellow” by the Aspen Institute, and “Great Immigrant” by the Carnegie Corporation of New York. He has received honorary degrees from Miami Dade College and Universidad Politécnica of Madrid.

Cabrera serves on the boards of the National Geographic Society, the Atlanta Committee for Progress, the Bankinter Foundation for Innovation, and the Metro Atlanta Chamber.

Cabrera earned his M.S. and Ph.D. in cognitive psychology from Georgia Tech, which he attended as a Fulbright Scholar. He also holds a B.S. and M.S. in computer and electrical engineering from Universidad Politécnica de Madrid. He has published extensively in academic journals and has been featured or quoted in leading media around the world.

He is married to management scholar and Georgia Tech classmate Elizabeth. Their son Alex is a recent Georgia Tech graduate and currently a Ph.D. student at Carnegie Mellon University. Their daughter Emilia is a senior at Harvard University. Cabrera is the first native of Spain to serve as president of an American university.
Steven W. McLaughlin is the provost and executive vice president for Academic Affairs at the Georgia Institute of Technology. He is a professor in the School of Electrical and Computer Engineering.

McLaughlin first joined Georgia Tech as a member of the faculty in 1996. From 2017 to 2020, he served as the dean and Southern Company Chair of Georgia Tech’s College of Engineering, the largest engineering college in the country. Prior roles include the Steve W. Chaddick School Chair in the School of Electrical and Computer Engineering from 2012 to 2017, and the vice provost for International Initiatives and Steven A. Denning Chair in Global Engagement from 2007 to 2012.

In 2014 he co-founded CREATE-X, a campuswide effort to instill entrepreneurial confidence in students and help them launch companies. The program has successfully launched 225 student-led companies and engaged more than 4,000 students in the principles and practice of evidence-based entrepreneurship.

In 2011 he was awarded the honor Chevalier dans l’Ordre Nationale de Merite (Knight of the French National Order of Merit), the second highest civilian award given by France. He was the first Georgia Tech recipient of the Presidential Early Career Award for Scientists and Engineers and was cited by President Bill Clinton for “leadership in the development of high-capacity, nonbinary optical recording formats.” He is a past president of the IEEE Information Theory Society and is a Fellow of the IEEE.

McLaughlin’s research interests are in the general area of communications and information theory. His research group has published in the areas of forward error correction and equalization in wireless communications, magnetic/optical data storage, data security, and privacy. He has advised more than 50 master’s and Ph.D. students and postdocs. His group has published more than 250 papers in journals and conferences and holds 36 U.S. patents.

He holds a B.S. in electrical engineering from Northwestern University, a master’s degree in electrical engineering from Princeton University, and a Ph.D. in electrical and computer engineering from the University of Michigan.
THE MACE
In academic ceremonies, the mace is an ornamental staff carried as a symbol of authority. The office of the mace bearer, though purely ornamental, dates back to medieval England when special occasions required the use of a bodyguard. In colonial America, the mace became a symbol of office when it was used in conjunction with academic regalia.

The Georgia Tech mace carried in today’s ceremony was designed by Cabell Heyward, a former research scientist in the College of Design, and was first used in April 1988 at the presidential installation of John P. Crecine. The mace was made possible by a gift from the Georgia Tech Student Foundation and the Class of 1934.

The primary focus of the mace is its three brass rods, which demonstrate the principle of “tensegrity,” a concept of structure combining tension and integrity developed by R. Buckminster Fuller in 1927. The integrity, or wholeness, of the mace is maintained by each of the rods being held in place by the tension of the steel wire; the rods do not touch one another at any point.

The brass rods symbolize the three primary components of Georgia Tech’s mission: education, research, and service. The gold color of the brass and the white color of the steel wire represent Georgia Tech’s colors. The mace also incorporates three silver metallic seals, which are reproductions of the official seal of the state of Georgia, the original seal of Georgia Tech, and the current seal of the Institute.

The mace was fabricated by Heyward and Arthur Schoenfeld, another former research scientist in the College of Design, in conjunction with Atlanta jeweler Robert Nagle.

ACADEMIC REGALIA
The academic regalia worn by today’s participants is a colorful relic dating back to the Middle Ages, when education was a function of religious organizations. The monks’ habit and the cowl worn over their heads were predecessors of the modern black gowns and hoods. The mortarboard was developed from the skullcaps worn during medieval days by churchmen officiating at religious services.

In 1894, American universities standardized gown styles for the three different types of degrees. Doctoral candidates at Georgia Tech wear customized gold regalia with full rounded sleeves, velvet facings on the front, and velvet bars on the sleeves. Hoods are lined in Georgia Tech’s colors of white and gold. The doctoral hood is distinguished by its blue trim, which is the color representing philosophy. Doctoral candidates also wear a six-pointed tam in the same blue trim.

Master’s degree candidates wear the traditional black gown with full-length square sleeves that have a crescent-shaped piece hanging from each sleeve. The gowns are also adorned with the Georgia Tech seal. The master’s hoods are lined in white and gold and are distinguished on the outside by the color of their degree program. Recipients of the bachelor’s degree wear a similar black gown, but with no hood and no additional material at the bottom of the sleeves.

Caps used by master’s and bachelor’s graduates are traditional mortarboards, and tassels are white and gold.
ACADEMIC DEGREES

The Bachelor's Degree
The bachelor's degree is the oldest academic degree used by American colleges and universities. The degree, which represents completion of a four-year course of study, was first awarded in 1642 to the graduating class of Harvard College.

The Master's Degree
The master's degree represents the completion of one or two years of study beyond the bachelor's degree. The degree dates back to the oldest universities in Europe, and it usually requires a thesis and an oral examination.

The Doctoral Degree
The doctoral degree is the most advanced academic degree conferred by American institutions of learning. “Doctor,” which means teacher or instructor, was used as a title in the 12th century to denote men of great learning.

INTERNATIONAL PLAN
The International Plan is a challenging four-year program that works in tandem with an undergraduate’s academic curriculum to produce globally competent citizens. The International Plan utilizes existing study, work, and research abroad opportunities available through the Office of International Education and the Center for Career Discovery and Development.

COOPERATIVE PLAN
The Undergraduate Cooperative Education Program is an academic option designed to complement a student's formal education with paid, practical work experience directly related to the student's academic major. It is available in all engineering majors, as well as many majors in other colleges at Georgia Tech.

HONORS QUALIFICATIONS AND CORDS
Honor designations are for undergraduates at Georgia Tech who have met the minimum residency hours requirement of 60 hours, as well as the minimum GPA.

- To achieve honor, the minimum GPA is 3.15.
- To achieve high honor, the minimum GPA is 3.35.
- To achieve highest honor, the minimum GPA is 3.55.

Changes in honor status may also occur after final printing. Georgia Tech issues honor cords to recognize students’ academic achievements. White cords denote honor, gold cords denote high honor, and a braided white and gold cord denotes highest honor.

THE RAMBLIN' WRECK
The Ramblin’ Wreck is the 1930 Ford Model A Sport coupe that serves as the official mascot. The Wreck is present at all major sporting events and student body functions. Its most noticeable role is leading the football team into Bobby Dodd Stadium at Historic Grant Field, a duty that the Wreck has performed since 1961.

THE WHISTLE
Tech’s iconic steam whistle blasts its signal when Tech wins a home football game and for milestone events.

BUZZ
Legendary Tech icon Buzz made his first campus appearance at a student pep rally in 1980. Over the past three decades, Buzz has gone on to become one of the most beloved — and globally recognized — university mascots.

IN MEMORIAM
We recognize the passing of members of the Georgia Tech community with the floral arrangement at the front of the stage.

GUEST DECORUM
You are requested to refrain from loud expressions of excitement for individual graduates. Such expressions detract from the recognition due the next graduate in line. Your cooperation is appreciated.

Summer Doctoral Degree Candidates

Doctor of Philosophy
PUBLIC POLICY JOINT PROGRAM
Amol Soni
Advisor: Dr. Marilyn Brown

ROBOTICS
Samarth Manoj Brahmabhant
Advisors: Dr. James Hays and Dr. Andrea Thomaz
Gennaro Notomista
Advisor: Dr. Magnus Egerstedt
Xinyan Yan
Advisor: Dr. Byron Boots

COMPUTATIONAL SCIENCE AND ENGINEERING
Yuzhi Guo
Advisors: Dr. David Frost and Dr. James Frost
David Caleb Robinson
Advisor: Dr. Bistra Dilkina
Jordi Samuel Wolfson-Puu
Advisor: Dr. Edmond Chow

BIOINFORMATICS
Ruoyu Tian
Advisor: Dr. Gregory Gibson

BIOENGINEERING
Kathleen Elizabeth Bates
Advisor: Dr. Hang Lu
David Mark Francis
Advisor: Dr. Susan Thomas
Bailey Grace Hannon
Advisor: Dr. Christopher Ethier
Lina Maria Mancipe Castro
Advisor: Dr. Andres Garcia
Stephen Timothy Robinson
Advisor: Dr. Shuichi Takayama

BIOMEDICAL ENGINEERING JOINT PROGRAM
Congmin Xu
Advisors: Dr. Huaqin Zhu and Dr. Peng Qiu
Lingyi Zhao
Advisor: Dr. Changhui Li

BIOMEDICAL ENGINEERING
Aaron Thomas Blanchard
Advisor: Dr. Khalid Salaita
Michael Forrest Bolus
Advisor: Dr. Garrett Stanley
Joshua Mark Brockman
Advisor: Dr. Khalid Salaita
Simone Andrea Douglas
Advisor: Dr. Manu Platt
Jiexi Liao
Advisor: Dr. Cheng Zhu
Kalina Paunovska
Advisor: Dr. James Dahlman
Elda Alicia Trevino
Advisor: Dr. Johanna Temenoff

ALGORITHMS, COMBINATORICS, AND OPTIMIZATION
Digvijay Pravin Boob
Advisors: Dr. Guanghui Lan and Dr. Santanu Dey
Saurabh Sunil Sawlani
Advisor: Dr. Liang Peng
Uthaipon Tantipongpipat
Advisor: Dr. Mohit Singh

HUMAN-CENTERED COMPUTING
Matthew Kyung Soo Hong
Advisor: Dr. Rosa Arriaga
Jessica Annette Pater
Advisors: Dr. Elizabeth Bumgardner and Dr. Elizabeth Mynatt
Briania Jean Tomlinson
Advisor: Dr. Bruce Walker

COMPUTER SCIENCE
Farnaz Behrang
Advisor: Dr. Alessandro Orso
Tessa Kate Fitzgerald
Advisor: Dr. Ashok Goel
Long Gong
Advisor: Dr. Jun Xu
Ashish Gupta
Advisor: Dr. Jaroslaw Rossignac
Mehmet Emre Gursoy
Advisor: Dr. Ling Liu
Sanidhya Kashyap
Advisor: Dr. Tae soo Kim
Hyouk Jun Kwon
Advisor: Dr. Tushar Krishna
Weiyang Liu
Advisor: Dr. Le Song
Ankush Mandal
Advisor: Dr. Vivek Sarkar
Tarun Mangla
Advisor: Dr. Mostafa Ammar
Bahador Saket
Advisor: Dr. Alex Endert
Nader Sehatkhahsh
Advisor: Dr. Milos Prvulovic

AMIRREZA SHABAN
Advisor: Dr. Byron Boots
KAMAL SHADI
Advisor: Dr. Konstantinos Dovrolis
RAKSHIT S. TRIVEDI
Advisor: Dr. Hong yuan Zha
ASHWIN KALYAN VYAJYAKUMAR
Advisor: Dr. Dhruv Batra
EMILY BETH WALL
Advisor: Dr. Alex Endert
MENG XU
Advisor: Dr. Tae soo Kim
WENHAO YU
Advisor: Dr. Gregory Turk
YIMENG ZHAO
Advisor: Dr. Mostafa Ammar

DIGITAL MEDIA
Eric Jay Corbett
Advisor: Dr. Christopher Le Dantec
Firaz Ahmed Peer
Advisor: Dr. Carl DiSalvo
Anna Virginia Weisling
Advisor: Dr. Brian Mugerko

HISTORY AND SOCIOLOGY OF TECHNOLOGY AND SCIENCE
Ling Ming Huang
Advisor: Dr. Gerhard Krige
Renee Marie Shelby
Advisor: Dr. Mary McDonald

ECONOMICS
Xi Mao
Advisor: Dr. Tibor Besedes

CITY AND REGIONAL PLANNING
Benjamin Robert Kraft
Advisor: Dr. Nancye Leigh

ARCHITECTURE
Nirvik Saha
Advisor: Dr. Dennis Shelden
Shani Sharif
Advisor: Dr. Thomas Gentry

MANAGEMENT
Cheng He
Advisor: Dr. Omer Cem Ozturk
Toschia Menye Hogan
Advisor: Dr. Dong Liu
Mahdi Mahmoudzadeh
Advisor: Dr. Peter Thompson
Nikhil Dilip Paradkar
Advisor: Dr. Sudheer Chava

Fengrong Wei
Advisor: Dr. Cheol Eun

EARTH AND ATMOSPHERIC SCIENCES
Yunle Chen
Advisor: Dr. Nga Lee Ng
Chenyu Li
Advisor: Dr. Zhigang Peng

BIOLOGY
Kelly Leorah Michie
Advisor: Dr. Marvin Whiteley

MATHEMATICS
Zhibo Dai
Advisor: Dr. Heinrich Matzinger
Qianli Hu
Advisor: Dr. Ronghua Pan
Josiah Park
Advisors: Dr. Christopher Heil and Dr. Michael Lacey

PSYCHOLOGY
Brittany Elise Holthusen
Advisor: Dr. Bruce Walker
Ursula Grace Saetzler
Advisor: Dr. Scott Moffat

PHYSICS
Kevin Joseph Driscoll
Advisor: Dr. Shina Tan
Yiran Hu
Advisor: Dr. Walter De Heer
Hsin-Ju Wu
Advisor: Dr. Phillip First
Jeremy Yang
Advisor: Dr. Farrokh Ayazi

CHEMISTRY
Paul Lauchlan Balding
Advisor: Dr. Paul Russo
Samuel J. Baxter
Advisor: Dr. Angus Wilkinson
Alyssa M. Blake
Advisor: Dr. Paul Russo
Zachary A. Duca
Advisor: Dr. Amir Haji-Ahmad
Cameron Hill Feriante
Advisor: Dr. Seth Marder

Unlike traditional art and design programs, the Georgia Tech College of Design focuses on technologies that enable better design. Then we use the design process to fuse technology with places, products, lifestyles, learning, and healthcare.

Students and faculty in the Schools of Architecture, Building Construction, City and Regional Planning, Industrial Design, and Music develop interactive products, robots, instruments, buildings, environments, and digital experiences. The College’s research initiatives encompass today’s most pressing human and built environment issues, from accessibility, sustainability, and smart cities to groundbreaking efforts in spatial analysis and music technology. More than 1,000 graduate and undergraduate students are enrolled in the College of Design. An additional 1,000 students from across campus — representing every major at Georgia Tech — enroll in music courses each semester.
Established more than a century ago, the Georgia Tech Scheller College of Business has a distinguished history as part of a world-renowned technological research university. Scheller College is strategically positioned at the intersection of business and technology, with a commitment to developing principled business leaders who use technology to create value, drive innovation, and improve the human condition.

Located in the heart of midtown Atlanta’s Technology Square — an area with the highest density of startups, corporate innovators, and academic researchers in the southeastern U.S. — Scheller College provides its students with unparalleled learning opportunities as part of a dynamic innovation ecosystem. Through top-ranked career services and expansive alumni networks, Scheller College is able to connect students and graduates to the world’s most innovative companies not just in Atlanta, but around the world.

Scheller College offers AACSB-accredited bachelor’s, master’s, and Ph.D. degrees in business administration, along with a number of interdisciplinary and dual degrees in computing, design, engineering, and medicine (in collaboration with the Morehouse School of Medicine). Scheller College is recognized year after year as one of the top 10 among public institutions by U.S. News & World Report, Bloomberg Businessweek, and the Financial Times, developing analytically skilled and entrepreneurially minded leaders who are uniquely qualified for success in a digital-first, tech-driven world.

From the opening of the Institute and the establishment of the School of Mechanical Engineering in 1888, the College of Engineering (CoE) has continually grown. Today, the College incorporates eight engineering schools with a full-time enrollment of more than 16,000 undergraduate and graduate students. The College consistently ranks among the top five elite engineering schools in the country. All undergraduate and graduate engineering programs are ranked in the top 10 nationally. CoE is the largest college of engineering in the country and is number one in the production of women and minority engineers. CoE has more than 100,000 alumni living in 120 countries around the globe. Alumni go on to careers across all walks of engineering, as well as in professions like law, medicine, business, and public policy. Prominent alumni include George W. Woodruff (1917), philanthropist; Ronald Wayne Allen (1964), former chairman and CEO, Delta Air Lines; President Emeritus G. Wayne Clough (1965), former secretary, The Smithsonian Institution; Michael T. Duke (1971), former president and CEO, Walmart Inc.; Philip M. Breedlove (1977), former Supreme Allied Commander of NATO; Walter G. Ehmke (1989), president and CEO, Waffle House; and NASA astronauts John W. Young (1952), Sandra Magnus (1996), Eric Boe (1997), and Shane Kimbrough (1998).

The College of Sciences leads Georgia Tech’s charge to create and discover fundamental new knowledge in the sciences and mathematics. Together, Sciences students and faculty boldly explore natural and artificial worlds, not only to reveal and underpin the technologies of tomorrow, but also to advance the quality of human life and elevate the human spirit.

The College nurtures students who are intellectually curious, inspiring them to build for themselves empowering foundations in the natural, mathematical, and behavioral sciences. They are transported to the frontiers of human understanding, and invited to participate in pushing those frontiers forward by undertaking high-impact research in collaboration with world-class faculty in state-of-the-art facilities.

College of Sciences graduates are well honed in thinking critically, testing hypotheses, and engaging with others to unravel complex problems. They draw conclusions, reach decisions, and make judgments about nature through the enthralling interplay of data, reason, and imagination. They are indispensable in ensuring that the basic knowledge pipeline for new technologies is full and flowing.

From exploring the bizarre quantum logic of ultra-cold atoms or the breathtaking grandeur of the stars and the galaxies, to deciphering the billion-year history of Earth’s oceans and atmosphere, the origins of life on Earth and elsewhere in the cosmos, or the workings of the human brain, Sciences students embody the value and rewards of scientific curiosity shaped by careful mentoring and deep respect for how much of the world we still must discover and understand.
GEORGIA TECH PROFESSIONAL EDUCATION

Nelson C. Baker
Dean, Georgia Tech Professional Education

Georgia Tech Professional Education (GTPE) is the global campus and lifetime education arm of the Institute, providing continuing education for more than a century and learning at a distance for more than 40 years. GTPE offers more than 600 courses and bootcamps, 63 professional certificate programs, and 13 online degree programs in tech, business, and industry-specific subject matter to meet the needs of working professionals and industry partners. These programs are offered worldwide both online and on-site and are designed to position professionals to deliver immediate workplace impact using knowledge and skills learned from Georgia Tech’s faculty experts and each other.

In addition to professional academic offerings, the division administers K-12 outreach and English as a Second Language programs and manages meeting and event facilities at the Georgia Tech Global Learning Center in Atlanta and at Georgia Tech-Savannah.

GEORGIA TECH LIBRARY

Leslie Sharp
Dean of Libraries

The Georgia Tech Library is recognized internationally for robust digital services, student engagement initiatives, transformation of physical spaces, and innovative programming and services. Millions of books, journals, technical reports, government documents, maps, videos, popular reading, science fiction, and other items are available via the Library.

The Library’s website features access to hundreds of databases and thousands of books, e-books, scholarly journals and e-journals, reports, electronic dissertations, discipline- and course-specific research guides, and much more. With more than 500,000 visits to the website, nearly 4 million searches and full-text content accessed, and more than 1 million on-site visits annually, the Library’s services and resources are heavily utilized by the Georgia Tech community.

For students, the Library is a 24/7 gathering place — cultivating intellectual inquiry, promoting academic discourse, and fostering knowledge. For faculty, the Library supports world-class advancements in teaching and research. The Library also manages the G. Wayne Clough Undergraduate Learning Commons, which is dedicated to student academic enrichment and innovative learning opportunities. Clough Commons is a popular destination for students, with more than 3 million visits annually.

OFFICE OF THE EXECUTIVE VICE PRESIDENT FOR RESEARCH

Chaouki T. Abdallah
Executive Vice President for Research

The Office of the Executive Vice President for Research provides leadership and strategic direction to Georgia Tech’s $1 billion research enterprise. The goals are to create transformative research opportunities, to strengthen collaborative partnerships, and to maximize Tech’s economic and societal impact across the research enterprise and around the world. Direct reporting units include 11 interdisciplinary research institutes, the Georgia Tech Research Institute (Tech’s applied research arm), the Enterprise Innovation Institute (the nation’s largest university-based economic development, technology transfer, and industry assistance organization), the Georgia Tech Research Corporation (an affiliated organization that oversees contracting and licensing), and the Office of Industry Collaboration (created to coordinate large company partnerships). The newly created position of Chief Commercialization Officer is leading the development of a thriving campuswide entrepreneurial ecosystem.
With more than 400 student-athletes across 17 varsity sports, Georgia Tech competes at the highest level of intercollegiate athletics as a member of NCAA Division I and the Atlantic Coast Conference, while also developing young people who will change the world. Georgia Tech has long been a leader in innovation in college athletics with the NCAA CHAMPS/Life Skills Program (known as the Total Person Program at Georgia Tech), commitments to athletic scholarships until a student-athlete graduates, and the use of virtual reality in recruiting, among the many concepts that originated on The Flats.

The Yellow Jackets have won five national championships during their illustrious history (four in football — 1917, 1928, 1952, and 1990; and one in women’s tennis — 2007), and made two appearances in the Final Four in men’s basketball (1990 and 2004) and three in the College World Series in baseball (1994, 2002, and 2006). Combining a world-class education with top-notch athletics, Georgia Tech has produced 85 Academic All-Americans.
The President’s Cabinet

Chaouki T. Abdallah
Executive Vice President for Research

Barrett H. Carson
Vice President for Development

Lynn M. Durham
Vice President for Institute Relations

Archie W. Ervin
Vice President for Institute Diversity, Equity, and Inclusion

Bonnie H. Ferri
Vice Provost for Graduate Education and Faculty Development

Kelly Fox
Executive Vice President for Administration and Finance

James Hudgens
Senior Vice President and Director of GTRI

Renee Kopkowski
Vice President for Institute Communications

Steven W. McLaughlin
Provost and Executive Vice President for Academic Affairs

Frank Neville
Senior Vice President for Strategic Initiatives and Chief of Staff

Ling-Ling Nie
General Counsel and Vice President for Ethics and Compliance

Colin Potts
Vice Provost for Undergraduate Education

Todd Stansbury
Director of Athletics

John M. Stein
Vice President for Student Life and Dean of Students
The Institute also wishes to thank the dozens of student, faculty, and staff volunteers who helped make today’s ceremony possible. Your contributions are absolutely vital, and your hard work and devotion to Georgia Tech are much appreciated.
Welcome to the Georgia Tech Alumni Association

CONGRATULATIONS!

You are now part of the Georgia Tech Alumni Association, an exclusive organization of more than 172,000 alumni worldwide.

We are with you for a lifetime — ready to provide professional development skills, to connect you with fellow Yellow Jackets in your local community and globally, and to welcome you back to campus.

Continue your pursuit of progress and service with us. Join in volunteer leadership and community service opportunities and help fund scholarships, state-of-the-art programs, and the legacy of the Institute with Roll Call, Georgia Tech’s Fund for Excellence.

We stand in proud support of you and invite you to stand next to each other in proud support of Georgia Tech. As you set out to change the world, stay in touch. Our Georgia Tech Connect online platform hosts lively discussions, houses job opportunities, and keeps you in touch with fellow graduates. Sign up at connect.gtalumni.org.

Jocelyn Stargel
IE 1982, M.S. IE 1986
Chair, Alumni Association
THE ALMA MATER

Oh, sons of Tech, arise, behold!
The Banner as it reigns supreme,
For from on high the White and Gold
Waves in its triumphant gleam.
The spirit of the cheering throng
Resounds with joy revealing
A brotherhood in praise and song,
In memory of the days gone by.
Oh Scion of the Southland!
In our hearts you shall forever fly.
We cherish thoughts so dear for thee,
Oh, Alma Mater in our prayer.
We plead for you in victory,
And in the victory we share!
But when the battle seems in vain
Our spirits never falter;
We’re ever one in joy or pain
And our union is a lasting bond.
Oh! May we be united
Till the victory of life is won.

Music by Frank Roman
Words by I.H. Granath

THE RAMBLIN’ WRECK

I’m a Ramblin’ Wreck from Georgia Tech, and a hell of an engineer
A helluva, helluva, helluva, helluva, hell of an engineer.
Like all the jolly good fellows, I drink my whiskey clear.
I’m a Ramblin’ Wreck from Georgia Tech, and a hell of an engineer.

Oh! If I had a daughter, sir, I’d dress her in white and gold,
And put her on the campus to cheer the brave and bold.
But if I had a son, sir, I’ll tell you what he’d do—
He would yell “To Hell with Georgia” like his daddy used to do.

Oh! I wish I had a barrel of rum and sugar three thousand pounds,
A college bell to put it in and a clapper to stir it ‘round.
I’d drink to all good fellows who come from far and near.
I’m a Ramblin’, Gamblin’, hell of an engineer.

Today’s commemorative prints are provided to each graduate by the Georgia Tech Alumni Association.
